<input checked="" type="checkbox"/> Full-time education	<input checked="" type="checkbox"/> Lifelong learning	<input type="checkbox"/> Distance learning	<input type="checkbox"/> Block-release training

DESCRIPTION

Flying has become common but for most human beings it remains an incredible achievement! In spite of the Covid-19 global crisis, the aviation sector has a bright future. This crisis is a real game-changer, legitimately questioning both players and models, but it is definitely not the end of the long-lasting adventure of aviation. Air traffic is gradually resuming and private entities as well as public institutions are committed to tackling aviation's greatest challenge: flying with net zero emissions.

Aside from environmental concerns, regional and international regulation authorities, airlines, airport operators, aircraft manufacturers, OEM, MRO and firms have to face a growing number of complex challenges and to deal with more legal and regulatory issues such as safety, security, export control, embargoes, data protection, competition, unmanned systems... In this context, the demand for qualified legal expertise is increasing.

The LL.M. International Aviation Law aims at offering strong expertise and appropriate solutions to aviation sector players. With over 422 hours of face-to-face teaching, a set of comprehensive modules addressing the major current legal issues of this area, and many academic and industrial partnerships, this LL.M. stands first and unique worldwide and is designed both for graduate students and for top executives in these domains

ACADEMIC PROGRAMME

The LL.M. includes 422 hours of teaching and seminars divided into 2 core modules and 4 specialized modules. All modules are mandatory to obtain the Master degree. Courses are offered in sessions of three to five days, approximately once a month. Participants also have either to complete an internship or to conduct a group-work project under academic or professional supervision. Standalone modules and courses are available on demand and subject to special arrangements.

For more informations, check RNCP (Répertoire National des Certifications Professionnelles) information sheet for « master mention droit international et droit européen »: <https://www.francecompetences.fr/recherche/rncp/36113/>

EVALUATION

Core module 1: a 3-hour written exam (practical case) – 15 credits

Core module 2: a 3-hour written exam (practical case) – 15 credits

Specialized modules: one oral examination encompassing all 4 modules + one in-class test per module – 20 credits

Internship or group project: written report and defense – 10 credits

ADMISSION AND REGISTRATION REQUIREMENTS**TARGETED PUBLIC:**
